California

Carolyn Anderson, Penn Valley

I'm an educator, speaker, writer, and entrepreneur and a co-director and co-founder of Global Family and Hummingbird Community in northern New Mexico. My passion is living and sharing co-creative practices and supporting all members of our human family to awaken fully to our potential, as we birth a more loving world together.

I co-authored *The Co-Creator's Handbook 2.0* and have contributed to a number of other books related to personal empowerment and spiritual evolution, including *52 Codes for Conscious Self Evolution* with Barbara Marx Hubbard. It's my joy to be a partner in Living Co-Creation Associates and to live in northern California with my husband, Sanford.

Sanford Anderson, Penn Valley

I'm a social entrepreneur who is focused on helping build a critical mass of people who act from the "higher level of thinking" that Einstein spoke about. (I also refer to "heartful thinking," because I'm a big fan of the work of the HeartMath organization and use their technology every day.) My main activities are as a partner with Living Co-Creation Associates (livingcocreation.com) and as Board Member and Treasurer of Global Family (globalfamily.org).

I've had a business career during which I helped start three companies and have also built a life coaching practice. I live with my wife, Carolyn, in Northern California.
