

Mexico

Adriana Colotti Comel

Building Bridges of Light in the inner and outer realms is my passion. I am a Sociologist and have done community work in Mexico in urban and rural communities all of my “revolutionary years.” With a solid foundation of Zen Buddhism, I became later an Evolutionary of Consciousness bridging my Energy Work with the Conscious Evolution Work. I am passionate to translate now *The Co-Creators Handbook 2.0* for all the Spanish speaking world to continue to build bridges of light with our Global Family live and online and to keep expanding our inter-connections wholeheartedly in love and light. I live in Mexico City.
