

Germany

Markus Werner, Kassel

I'm an independent filmmaker and coach in Germany. My documentary films include "Follow the Rainbow to Findhorn" about the Ecovillage in the North of Scotland and "ONE WISDOM" about the challenging times we are living in right now.

In my association with Barbara Marx Hubbard and the Foundation of Conscious Evolution and Global Family, I'm most passionate about building a resonant field globally, bringing people together in conferences and live meetings to explore the new that resonates with evolution, and making the "new" visible on as many levels as possible.

Since 2008 I've been leading different groups to join a shared field of co-creation. Read more at

Kerstin Liffer, Baden Baden

I am a personal trainer, coach, psychotherapist, photo-artist, mother of four wonderful sons and the founder of transformARTion[®], the ART of being authentic, coming home to ourselves, and staying connected with all life in love!

I am a team leader in the humantrust community, member of the Academy of Potential Enfolding and my passion is bringing visionaries together and supporting people to fulfill their potential. My work is about self-expression, happiness, fulfillment, gratitude, dignity, creativity, universal beauty, love, and shining from the inside out! I love to create and maintain resonance.

My vision is to open spaces, to hold the whole, and to be a catalyst and bridge between fields and people who want to live "freedom in connectedness."
