Ani Ahavah, Santa Barbara

My life is dedicated to the One ever-evolving source and substance of Life. I have served as Juvenile Probation Officer in Baltimore and as a catalyst for the self-organization of MD Youth Service Bureaus. As founder of the Family Community Leadership Training Institute in inner-city Indianapolis for five years, I received the first Spirit of FCL award from nafce.org. As Community Liaison with the Institute for Self-Governance, I supported the collective of public housing communities in Indianapolis to be in cocreative dialogue with the local housing authority. For seven years, I guided small core groups from around the world through the Gateway To Conscious Evolution. From 2009-2016 I hosted the SBLOVE GRID and other events at Ayni Gallery Community Center. Now I am serving the emergence of cocreative core groups at UNITY of Santa Barbara. New Thought Minister; Author of That Which Arises; Evolutionary Catalyst.

Hello Global Family! I founded Speaker Venture, a seminar company that trained spiritual business owners to master their on-stage presentations from the inside-out. I've spoken across the country on 500+ stages, and was named 1 of the Top 20 Conscious Entrepreneurs of the year.

I'm the co-founder, along with my sister Melissa, of [Tiny House Block](#) and [Banner Ranch Julian](#). As San Diego's first-ever tiny house villages, we provide short-term & long-term housing, and host personal growth and music & arts events celebrating unity through diversity.

Why Global Family matters to me: if each person on the planet committed to seeing one another as members of the same global family, that would end all othering and -isms. That's a vision worth dedicating my life to.
