Makasha Roske, Hummingbird Community, Mora

After a major shift in consciousness in 1972, I co-founded World Family. Embodying the same core values as Global Family, we merged the two organizations in 1987.

For the past 5 decades I've served the awakening of our collective humanity through facilitating international festivals for peace and being a cultural pioneer for the emerging new earth.

In the co-founding and stewardship of Hummingbird Community, I am committed to whole systems transformation and facilitating a whole life curriculum from conscious birthing to conscious dying. As father of a large tribe and co-founder of our family's youth organization, Earth Guardians, I am passionately devoted to the well being of all life for future generations.
